

## PARENTS' GUIDE TO RE-ENROLLING STUDENTS USING ECOLLECT FORMS

For the 2023-24 school year, the Leona Group (TLG) schools in Michigan have implemented an online, paperless Re-Enrollment process using Ecollect forms. These forms are available online and may be filled out at your convenience, from the comfort of your own home, making them completely safe and secure.

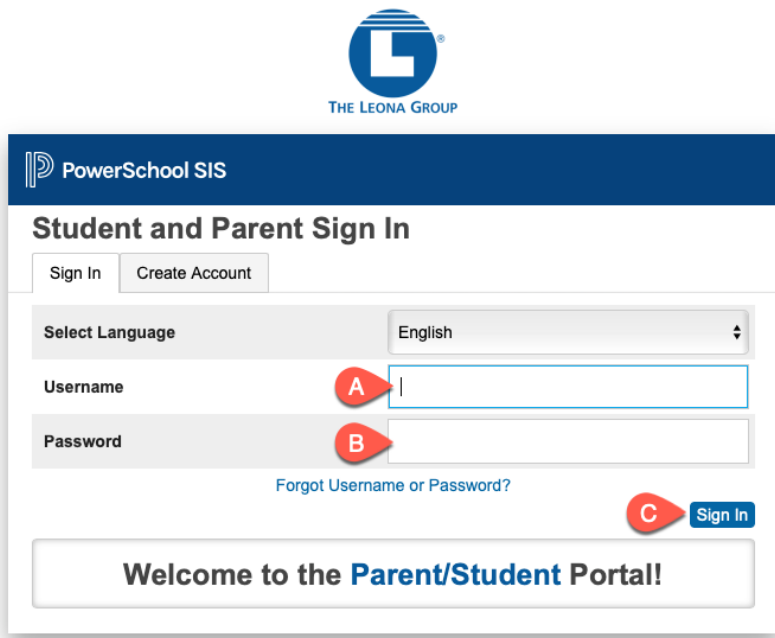

The Re-Enrollment process consists of two parts:

- Part 1: indicate your intention (Yes or No) to have your child re-enroll in the school for 2023-24 -- this is a required form
- Part 2: if re-enrollment is intended, certain student information may be updated if needed (such as home address, phone, contact information, etc) – these forms are optional at this time, and may be rolled out between now and the start of school

### ACCESSING ECOLLECT RE-ENROLLMENT FORMS

Ecollect forms are accessed from your PowerSchool Parent Portal account. No separate login is necessary.

STEP 1: Log into your PowerSchool Parent Portal account

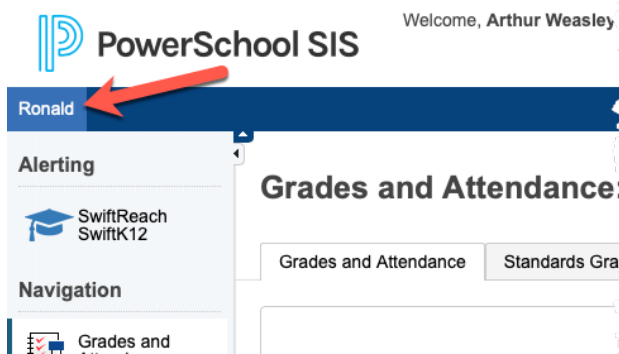

The screenshot shows the PowerSchool SIS login interface. At the top left is the Leona Group logo. Below it, the text 'PowerSchool SIS' is displayed. The main heading is 'Student and Parent Sign In'. There are two buttons: 'Sign In' and 'Create Account'. A 'Select Language' dropdown menu is set to 'English'. Below that are input fields for 'Username' and 'Password'. A red callout 'A' points to the Username field, and a red callout 'B' points to the Password field. A link 'Forgot Username or Password?' is located below the password field. A red callout 'C' points to the 'Sign In' button. At the bottom, a white box contains the text 'Welcome to the Parent/Student Portal!'.

STEP 2: Select the name of the student from the ribbon on the top

If your Parent Portal account is linked to more than one student, each name will appear on the ribbon. Forms must be completed for each student individually

STEP 3: Access the Forms page

Click the Forms link on the left-hand Navigation bar. This link will allow you to access any forms shared with you: General Forms, Class Forms, Enrollment Forms, and Student Support Forms

## ECOLLECT PARENT PREFERENCES

A form may be set up to send notifications to parents when it is submitted for the student by a teacher or administrator or when the status of a pending form changes. Use the Preferences Button on the Forms page to indicate whether you would like to receive these notifications.

Clicking on the button will open the Parent Preferences dialog box. Here you can choose whether you wish to receive notifications and, if you do, which email address(es) you would like them sent to. Once set, the button changes color from golden to white.

You can access these settings any time from the Forms page.

## FILLING OUT A FORM

To open a specific form, click on the form name within the form list.

Above the form is the Form Ribbon. This allows you to move between forms within a category without having to return to the Forms page. Use the arrows on either end of the ribbon to scroll to see more forms.

Just below the Form Ribbon is the Archive Header. If a form has been previously submitted, the archive header gives you the ability to view these submissions.

The rest of the page is the form itself. Fields with the \* icon are required fields. They must be filled out in order for the form to be submitted.

## SUBMITTING A FORM

Once the form is filled out, press the Submit button at the bottom of the page. Your form will be submitted and reloaded. If the form submission was successful, a pop-up window will open thanking you for the submission.

Next to the Submit button is an arrow that brings up a couple of options for submission.

For some forms, the first may be “Submit for Family”. Choosing this option will allow you to choose which of your children you would like this submission to apply to. This is useful for a form that is not student specific, such as Emergency Contacts. It should not be used on forms that have student specific fields, such as the student’s name or birth date. Using “Submit for Family” will change the name, for instance, for all the children for which you submit the form to the same name within the school/district records.

The other option is to “Submit & Jump to...”. Below this option is a list of pages you can open after submitting this form, either the Forms page or a different form.

THE LEONA GROUP

## SAVE VS. SUBMIT

Next to the Submit button is the Save button. Use the Save button if you do not yet want or are not yet able to send the form to the school but do not want to re-enter information already filled out. It is recommended that you save a form if you have to step away from your computer, as PowerSchool may log you out for inactivity.

Saved forms are saved locally on your computer. You can access the saved entry from your same user on the same browser. You will not be able to access the saved data from another device. A form with a saved entry will appear Empty in the form listing.

When to Save:

- You need to step away from the computer
- You do not have all the required information but have filled out some of the information

When to Submit:

- You are ready to send the form to the school

## APPROVAL

A form may be set up to require a school or district administrator to verify the information in a form when it is submitted. When that is the case, the form will go into a pending state until the administrator approves or rejects the submission. A pop-up window will open on submission, informing you the form is pending approval.

The form will have a yellow background and edited fields that need approval will have a red flag beside them. Hovering over the flag will show the current and previous response for that field. On the Forms page, a pending form will have the status of  **Pending** and the row will be highlighted yellow.

If the form is approved, the status will be  **Approved** and the form background will return to white.

If the response to the form was rejected, the form will be highlighted red in the form list and the status will be  **Rejected**. Clicking the form name will display the form with a red background. A pop-up window will open, letting you know the form was rejected. If the administrator indicated a reason the form was rejected, that reason will also display on the pop-up.

Click the Edit Rejected button to be able to edit your submission. Once you finish making your changes, resubmit the form. It will return to pending status.

If the form is set up to send parent notifications and you have enabled them on your account, you will receive an email when a form's status moves from Pending to Approved or Rejected.
